Download Software

A. Purchase VM Ware Fusion 11.5

<https://store-us.vmware.com/vmware-fusion-11-5-5222152200.html>

Click "Add to Cart"

The screenshot shows the VMware Store product page for VMware Fusion 11.5. At the top, there's a navigation bar with links for PRODUCTS, UPGRADES, EDUCATION SERVICES, and SUPPORT. A search bar and a 'CART' button are also present. Below the navigation, a breadcrumb trail shows 'Store Home / VMware Fusion 11.5'. The main content area features a large image of the VMware Fusion 11.5 software box. To the right of the box, product details are listed: 'LOCAL DESKTOP VIRTUALIZATION' and 'VMware Fusion 11.5'. The price is \$79.99. A brief description states: 'VMware Fusion delivers the ultimate 'Windows-on-Mac' experience, and is recommended for home users who are looking for the easiest, fastest and most reliable way to run Windows applications on a Mac.' Below the description are buttons for 'Add to Cart', 'Quantity' (set to 1), and 'License Type' (set to 'New'). Payment method icons for American Express, Discover, Diners Club, MasterCard, Visa, and PayPal are shown. At the bottom, there are tabs for 'Key Features', 'System Requirements', 'Also Included', and 'Compare Kits'.

Get Proactive.
Get VMware Skyline.

You will be taken to a screen that looks like this:

The screenshot shows the 'License Keys' interface for account 723903131 - Mahesh Rao. The left sidebar has a search bar for 'Enter Folder Name' and a 'HOME' folder with a single item 'HOME'. A button 'VIEW SELECTED FOLDERS' is at the bottom. The main area is titled 'Products' and 'Licenses' with a 'Total Quantity' column. It displays a funnel icon and the message 'To view products, select a folder.'

Click “By Product”, then “Fusion 11”

The screenshot shows the 'License Keys' interface for account 723903131 - Mahesh Rao. The left sidebar has a search bar for 'Enter Folder Name' and a 'HOME' folder with a single item 'HOME'. A button 'VIEW SELECTED FOLDERS' is at the bottom. The main area is titled 'Products' and 'Licenses' with a 'Total Quantity' column. It displays a single row for 'Fusion 11' with 1 license and 1 computer. At the bottom, there are buttons for 'Products per page' (set to 25) and '1-1 of 1 Products'.

After setting up the VM If you encounter these pop-ups:

Just close VMware Fusion, reopen, then try launching the VM again.

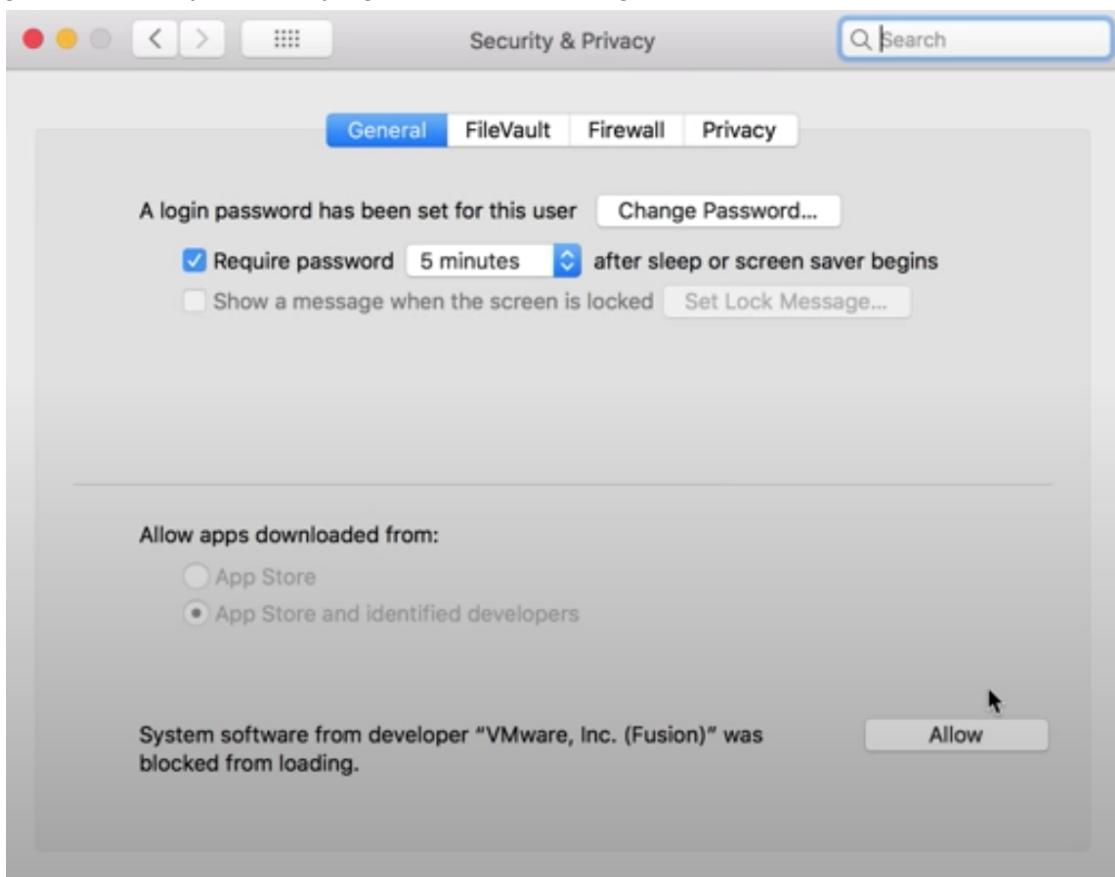

If that doesn't work go to your System Settings/General

Then to Security & Privacy

Under the General Tab in Security & Privacy you will see this message at the bottom:
"System software from developer 'VMware, Inc. (Fusion)' was blocked from loading."
Click the Allow button next to it. (If this message did not appear, then restart your computer and go into Security & Privacy again and the message should now be there).

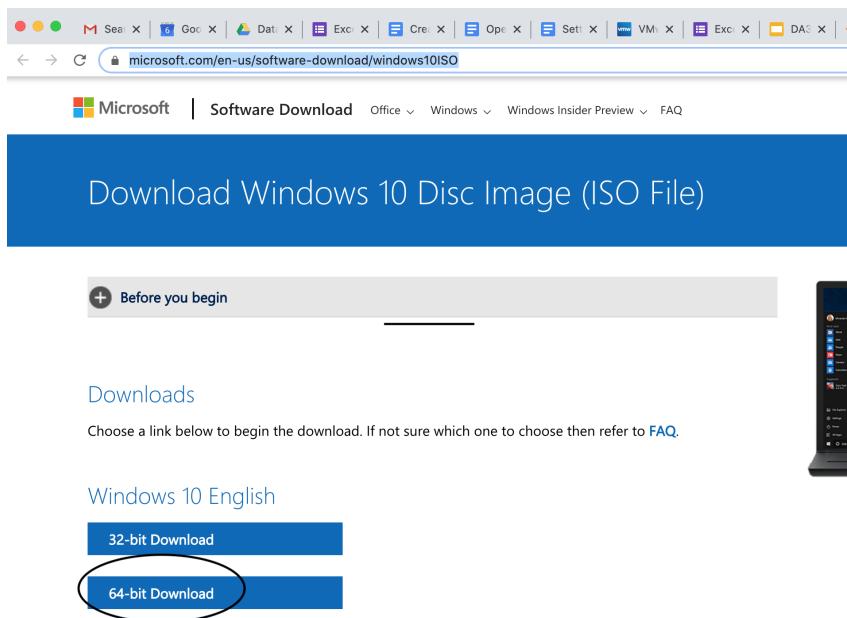

Don't forget to unlock (bottom left) so you can click the "Allow" button.

B. Download Windows 10

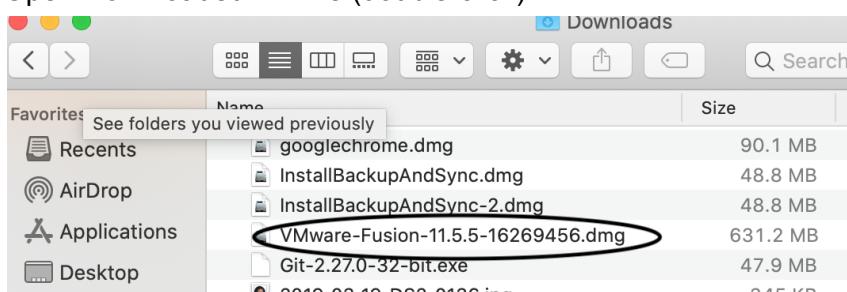

<https://www.microsoft.com/en-us/software-download/windows10ISO>

C. Select 64 - Bit Download

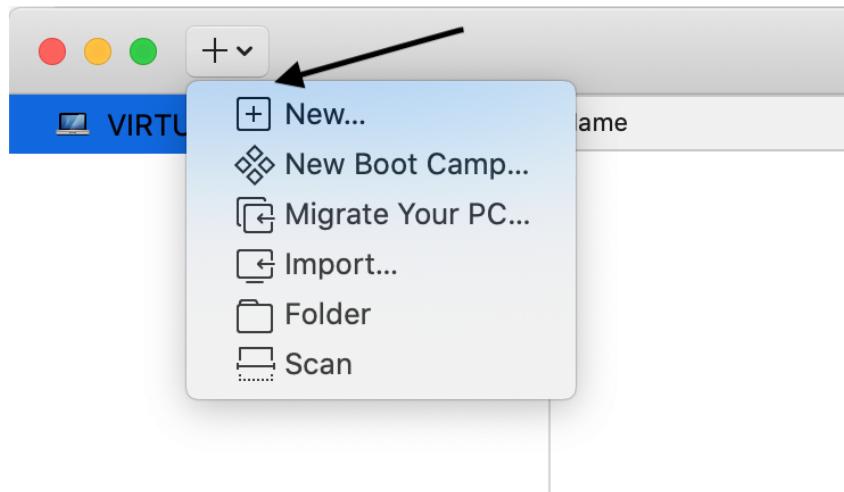

Open Software to create VM

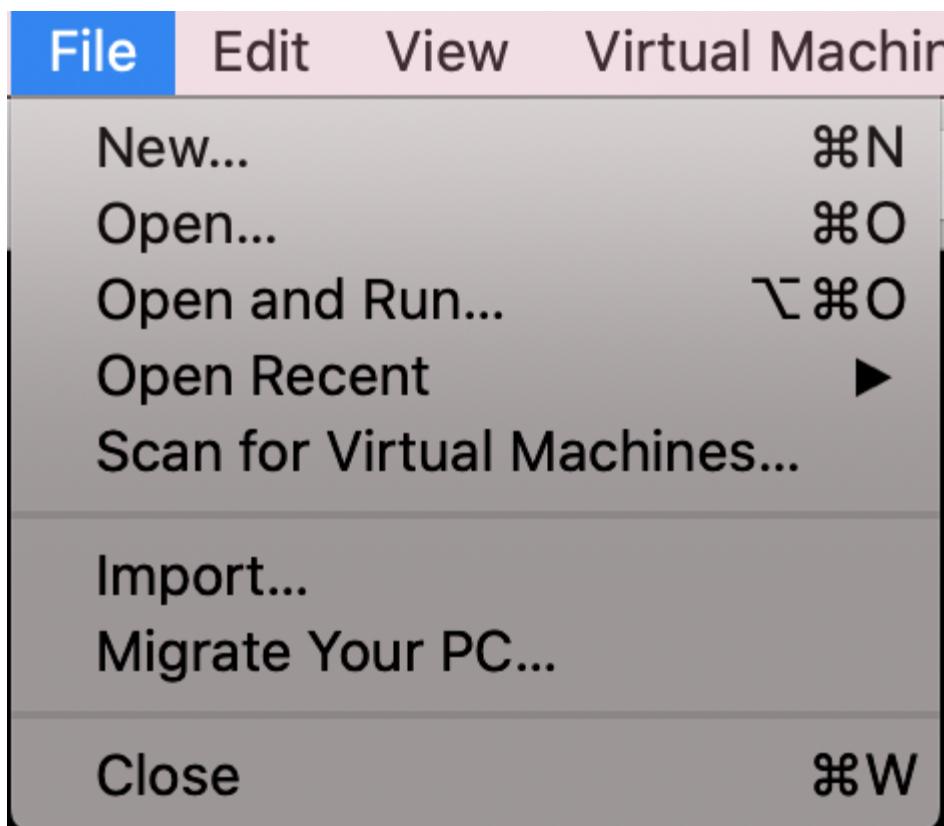

A. Open Downloaded VM file (double-click)

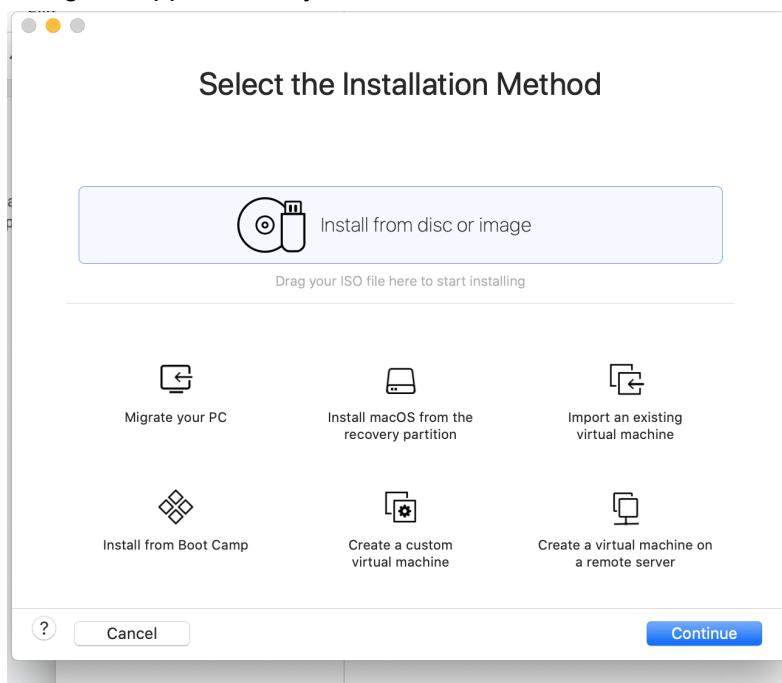

B. Open the VM Fusion icon and select “New” at the “+” sign

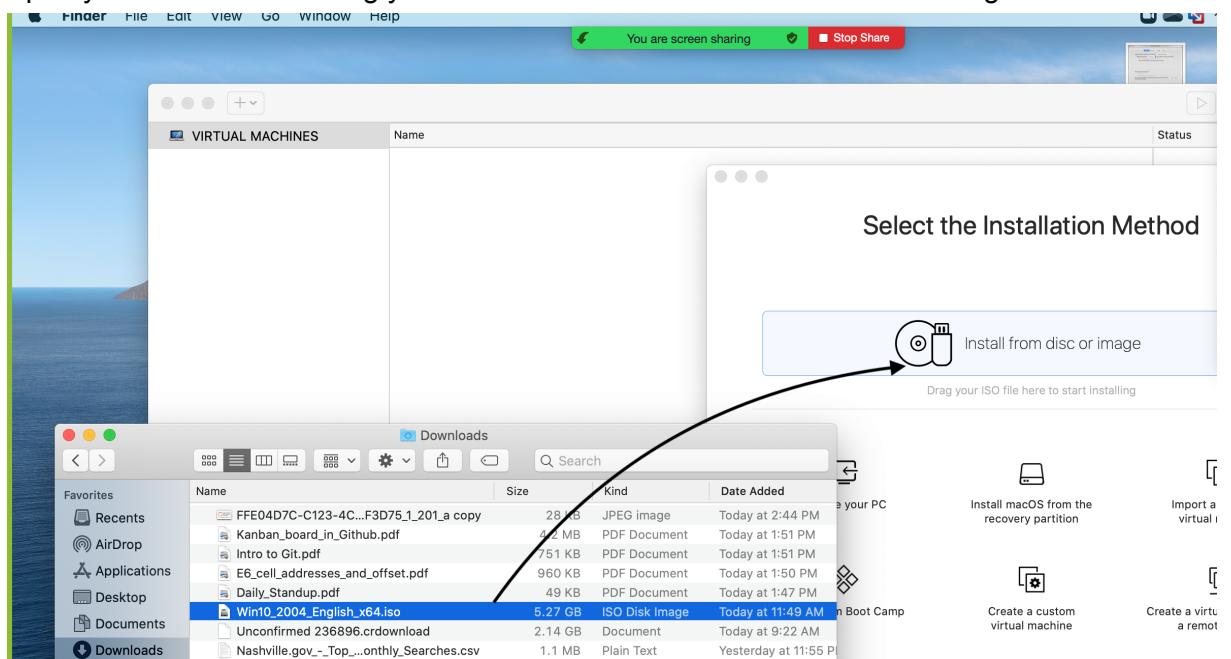

If you don't have the above option then go to your “File” in the toolbar to select “New”

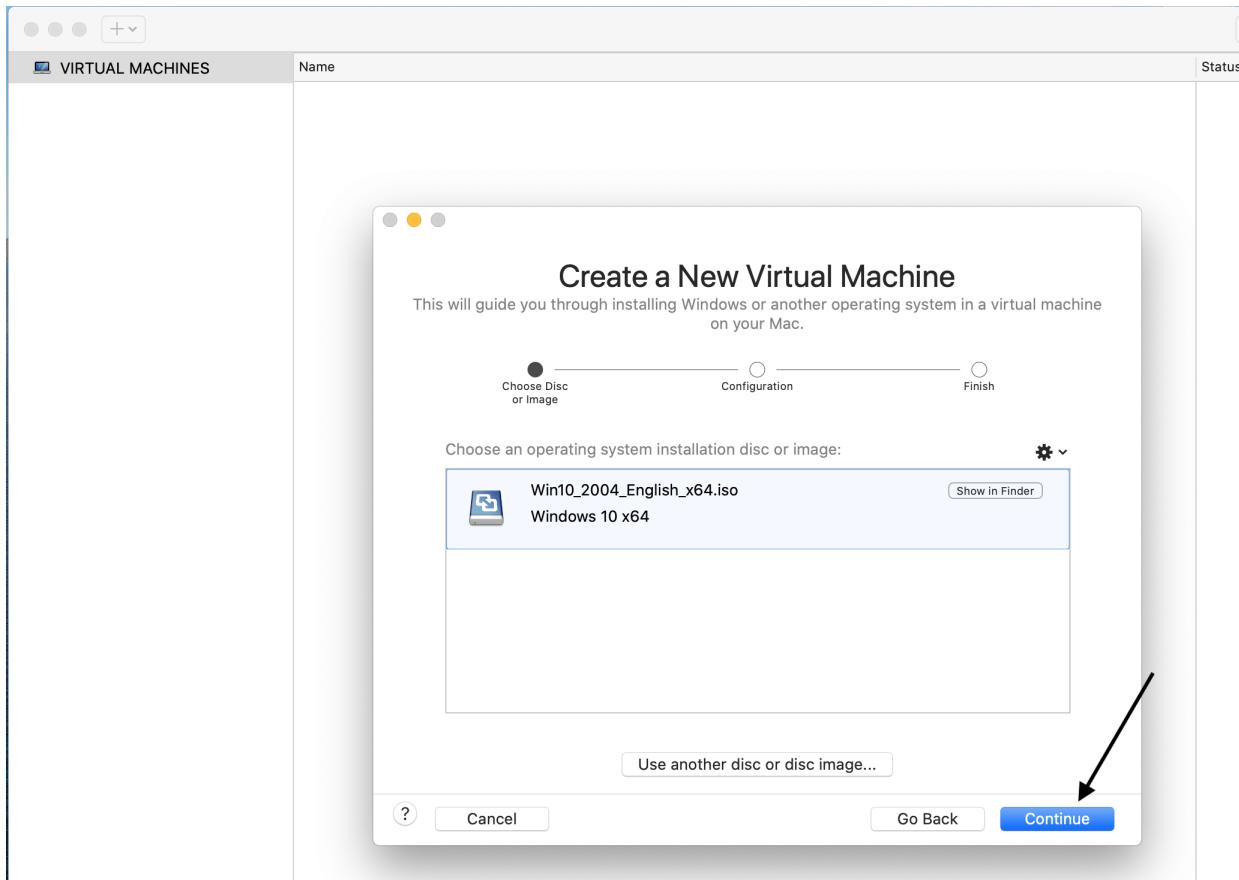

The following will appear after you do one of the above:

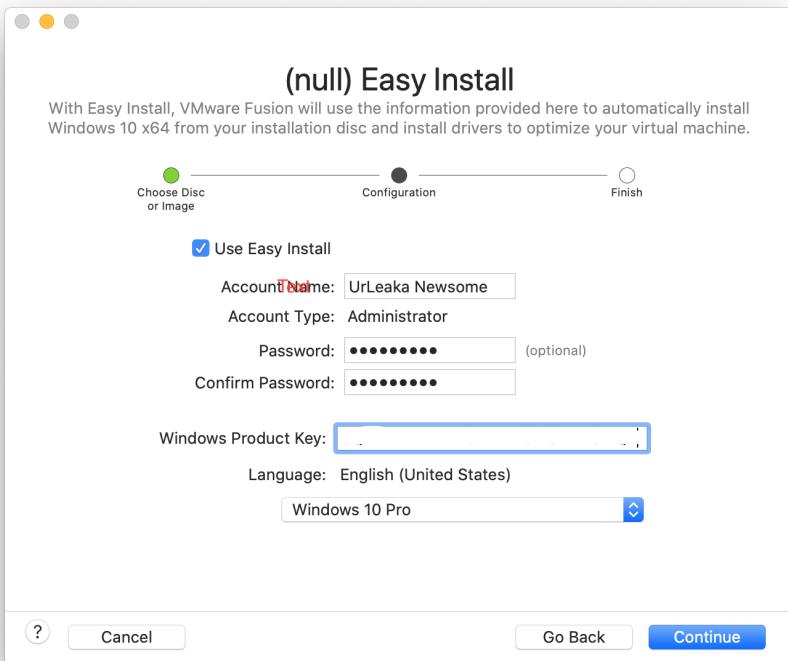

C. Open your “Finder” and Drag your Win10 File to the “Install from disc or image” field

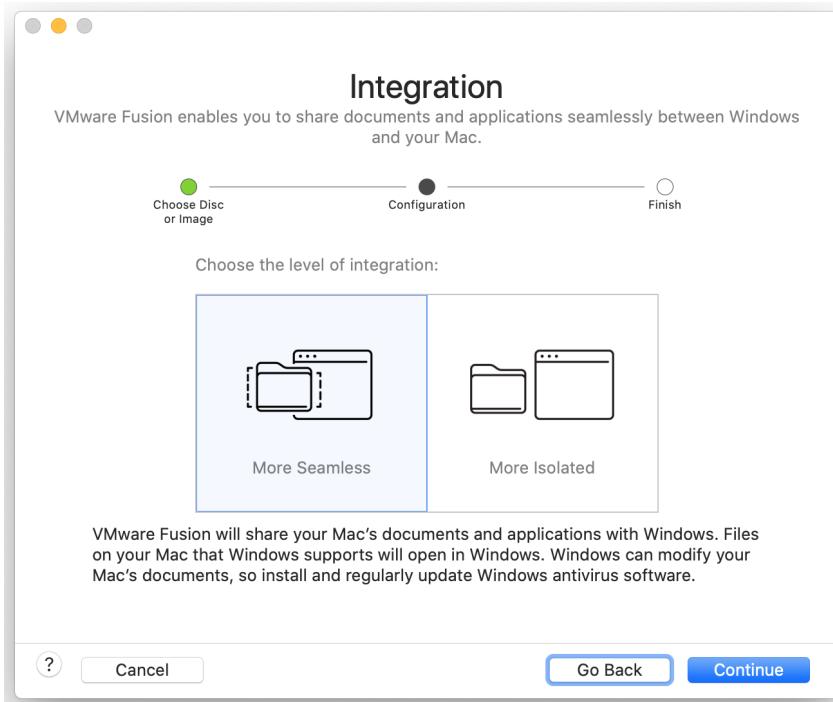

D. Configure VM Windows Account

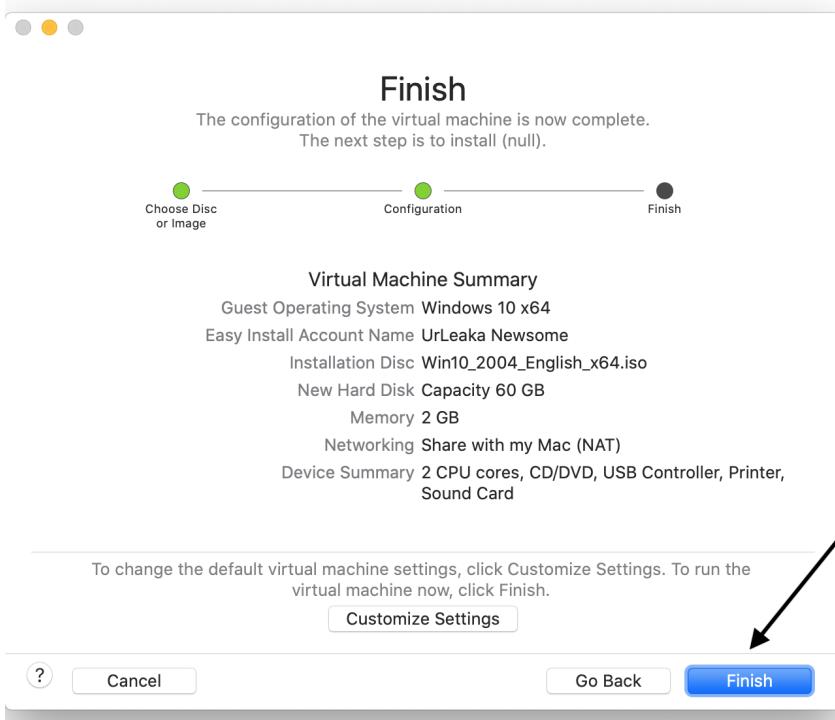

- a. Create a password (I encourage you to use the same one you use to log in to your mac.)
- b. Enter the Windows Product Key given to you
- c. Select "Windows 10 Pro"

E. Select the “More Seamless” Option

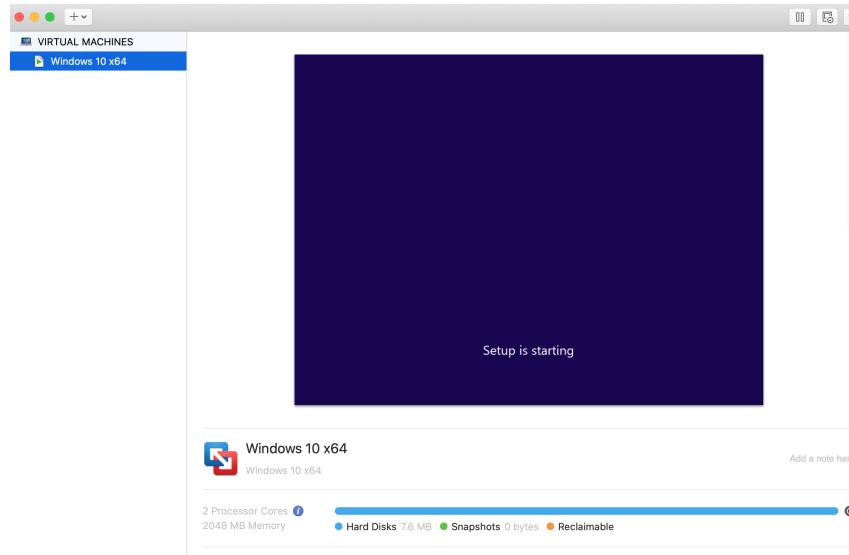

F. Check your current set up before moving forward. We will change the memory input from 2GB to 4GB. Click “Finish”

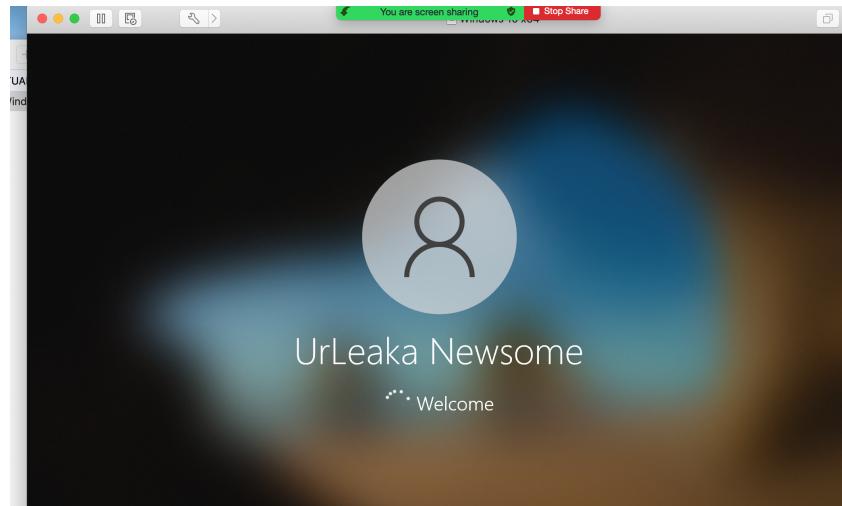

Opening and Using VM

A. Notice that “Setup is starting”

B. When you get to the Windows log in page, enter your password you created earlier

C. Proceed to using your Virtual Machine and download additional software

To change parameters of virtual machine

- A. In order to change the RAM and additional processing power, make sure the VM is properly shutdown.
- B. In VM Fusion, highlight your Windows 10 Machine and select “Virtual Machine” in the top toolbar.
- C. Change the corresponding settings to your preference
